in Muhammad Febrian

A Frontend Developer with more than 3 years of experience specializing in building modern, responsive, and user-friendly web interfaces. Skilled in ReactJS, TypeScript, TailwindCSS, Bootstrap, PHP, and UI/UX design using Figma, with additional experience in mobile development using React Native and backend environment using NodeJS. Passionate about continuous learning, exploring new technologies, and delivering high-quality digital experiences that solve real-world problems.

## Experience

### IT Developer @PT Kreasi Potensi Indonesia

May 2025 - Present // Jakarta, Indonesia

- ▶ Develop and maintain the youtzmedia.id news portal using Laravel and TailwindCSS.
- ▶ Build and optimize multiple agency websites with a focus on clean architecture and responsive UI.
- ▶ Improve website performance, SEO structure, and user experience across various company projects.
- ▶ Collaborate closely with internal teams to deliver scalable and production-ready web solutions.

### Web Developer @XRUN Metaverse Indonesia

September 2022 - May 2025 // Pantai Indah Kapuk, West Jakarta

- ▶ Revamped the company profile website to enhance UI consistency, loading speed, and SEO rankings.
- ▶ Developed mobile applications using React Native with NodeJS as backend for XRUN and MetaHint.
- ▶ Built the XRUN mobile app, an AR-based crypto token hunting app using React Native, Google Maps API, and NodeJS backend.
- ▶ Developed the MetaHint crypto wallet app for managing MetaHint tokens, released on Google Play Store.
- ▶ Worked on the Afterlife AI communication app using Speech-to-Text, ChatGPT, and ElevenLabs (backend not yet implemented).
- ▶ Created UI systems in Unreal Engine using Blueprint for metaverse-related features and internal prototypes.

### Volunteer Frontend Developer @Youth Ranger Indonesia

March - August 2022 // Banten, South Tangerang

- ▶ Collaborated with a team of designers and backend developers to build the Youth Ranger Indonesia company profile website using Figma and Laravel.
- ▶ Converted multi-iteration UI designs into a responsive frontend with clean and modern layouts.
- ▶ Improved on-page SEO structure to boost search visibility and content performance.

## Internship Frontend Developer @Boosternesia

January - March 2022 // Bandung, West Java

- ▶ Created the first company profile website for Boosternesia's English course program using Figma.
- ▶ Built the website using HTML5, CSS3, JavaScript, SwiperJS, and AOS, ensuring a modern and responsive interface.
- ▶ Collaborated with a Laravel backend developer to integrate dynamic content and successfully launch the website within one month.

# Projects

### Sopwerhos

Company profile website built with modern Next.js stack. Showcasing services, clean design, and responsive layout optimized for businesses in Indonesia.

https://sopwerhos.vercel.app/

### Gemilang Taruna

A modern website for Gemilang Taruna, a local food stall established in 2023. It showcases the brands identity, menu offerings, and story with a clean design. Key features include a responsive layout, product gallery, and contact section, making it easy for customers to explore the menu and connect with the business.
